DENTALEZ

6400 CHAIR

1 Emphasis on Ergonomics

Sit or stand: why choose when you can have both? As the highest-rising chair in the industry, it allows for greater patient treatment flexibility, helping more dentists practice without pain.

2 Access for Every Patient

Make your practice more accessible and inclusive. The exclusive CareGlide feature enables quick and easy repositioning of the chair for wheelchair access, X-rays, and cleaning in seconds.

With the highest in industry lift capacity of 525 pounds (patient only, with delivery unit and light 650 total), the 6400 allows you to treat patients of all sizes.

3 Comfort Meets Care

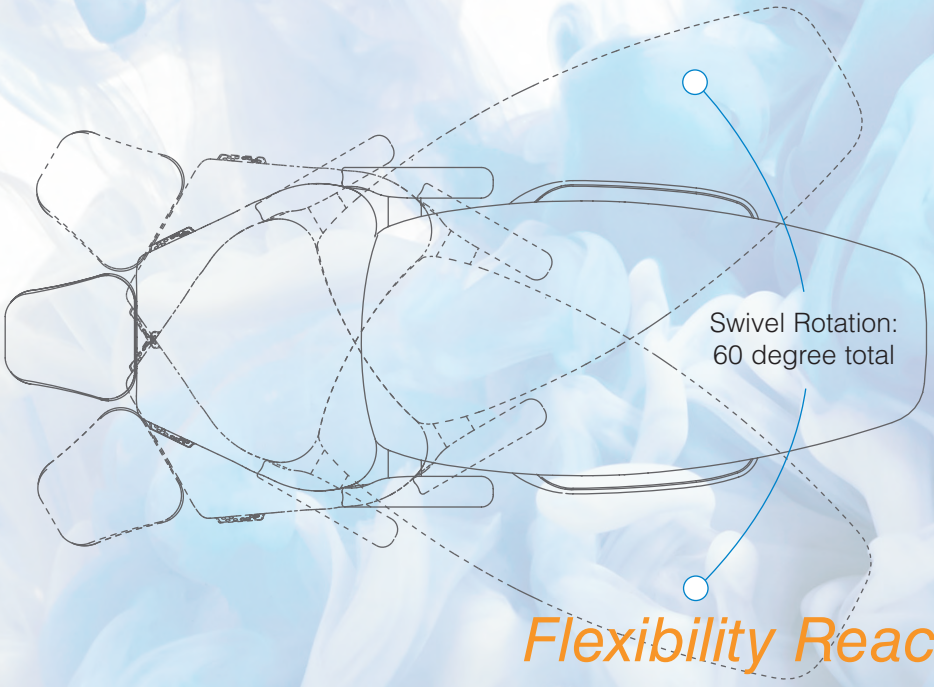
The adjustable heat and massage provide soothing warmth and relaxation while the optional neck, knee pillows, and plush UltraLeather cushion comfort the patient to reduce interruptions.

4 Latest Technology from Head to Toe

Utilizes digital chair position sensors to maintain chair positions reliably. The number one point of failure for chairs are those that use mechanical technology for chair positioning.

5 The New Standard in Smart

Maximize revenue opportunities with procedure efficiency data, minimize maintenance, and easily monitor the chair's performance with metrics from built-in Aeras Intel technology—all with no extra charge.



Flexibility Reaches New Heights

ERGONOMICS

"Game Changer"

"The 36.5" height will be a game changer, helping more clinicians practice without pain."

Katrina Klein - Certified ergonomics specialist and registered dental hygienist.

1

Emphasis on ergonomics

- Highest height
